BPAS pensionease
benefit outsourcing solution

Ease Benefit Administration Burden

When partnering with BPAS, you'll be confident in receiving timely and accurate benefit administration for you and your plan participants. With five decades of experience in consulting and benefit administration of Defined Benefit plans, BPAS delivers.

More and more employers are outsourcing their plan administration. Let our team focus on the administration so your team can focus on your business needs.

Benefit Packages
Preparation and archiving of all complete optional form packages.

Required Event Notification
Notice of benefits based on pension regulations or plan-specific provision. (e.g., terminated vested notice, mandatory cash-outs, required minimum distributions)

Distribution Processing
Mailing of benefit packages. Review election forms for completeness and archive. Coordinate start of payment with payer.

Benefit Administration
Robust database coded to your plan specifications. View data and plan documents. Pension benefit modeling functionality.

Custom Web Portal
Secure, real-time, participant portal to view individual data, benefit statement, and plan documents. Self-service benefit modeling.

Participant Services
Direct benefit processing and support to plan participants through service center. Real-time event processing. Direct mail services.

Recordkeeping
Collection of pension benefit data and status changes through periodic feeds. Death monitoring and address searches.
