

Cash Balance Plan Solution

If you're a business owner looking to save more for retirement, adding a Cash Balance pension plan to your retirement program is a great way to increase tax-deferred benefits.

Larger tax deductions. Accelerated retirement savings.

Cash Balance Plans (CBs) are perfect for employers who maximize contributions under an existing Defined Contribution (DC) plan and would like to contribute more. **CBs are in addition to, not instead of DC plans.**

- Each participant has an account that grows with contributions and interest credits
- Interest credits are guaranteed, not based on investment performance
- Contributions may be a percentage of pay or a flat-dollar amount
- Theoretical account balances don't need to equal plan assets
- Lump sum or annuity distributions
- Pension Benefits Guaranty Corp (PBGC) insured up to certain limits (some plans exempt from coverage)
- Annual actuarial certifications required
