

Payroll Integration

Best in class plan administration seamlessly integrated with your payroll provider saves time, reduces errors, streamlines file delivery, and makes your life a lot easier.

Choose Your Integration Model

At BPAS, we maintain a growing list of payroll providers that support our 180- and 360-degree payroll integration and make retirement plan administration easy. While some payroll companies have varying service levels and platforms that may affect eligibility, many are willing to start 180-degree integration at little or no cost.

180-Degree Integration

BPAS works with the payroll provider to securely submit census files each pay period, without plan sponsor involvement. The client will receive an email when files are ready to be approved for trading with a simple login to BPAS CensusPro.™ It's that easy. Our 180-degree integration list features providers including ADP, American Payroll, Ascentis, ALIGHT, ASP, Asure, BCM BerganKDV, CheckMate, CGI, CTR, Complete Payroll, Datis, Dominion, Exact Pay, HRC, PayChoice, Payco, PayPro, PaySmart, Paytime, Precision, Paychex, Proxus, Smith Elliot and Kerns, Staffline, TRAX, Trivantus, UKG, Zenith, and more!

360-Degree Integration

Working in conjunction with our full online enrollment service, this model takes the benefits of 180-degree integration a step further. BPAS communicates directly with the payroll provider on action items like new enrollments, contribution rate changes, new loans, and hardship distributions and transmits data directly to the payroll provider. It saves our client an enormous amount of time! We work with a growing number of payroll providers including AssetHR, Ceridian, iSolved, ManagedPay, MP/MassPay, Paycor, Paylocity, PayKconnect, Press Gold Group, Renova, UKG, and more!

Custom solutions with premier administration, flexibility, and technology that save you time, and reduce plan headaches. Retirement plans don't need to be messy.
